Re: Notice of Violation Issued to USX Corporation for
the Clairton & Edgar Thomson Plant Operations
AFS #s 42-003-00032 and 42-003 00202

Dear Mr. Turlinski:

Pursuant to my conversation with Dennis Lohman of your office earlier today, U.S. Steel, a unit of USX Corporation, hereby requests a conference with EPA to discuss the above-referenced notice of violation (NOV). U.S. Steel wishes to resolve the NOV as soon as possible and therefore, agrees that your office should set a date for the conference in order to allow for the inclusion of the appropriate personnel from the agencies involved.

It is U.S. Steel's understanding that by requesting a conference, U.S. Steel is not considered to be in violation of § 113(c) of the Clean Air Act, 42 U.S.C. § 7413(c), for knowingly violating any plan or permit requirement more than 30 days after having been notified of the violation.

U.S. Steel appreciates the opportunity to discuss the NOV with EPA and looks forward to an amicable resolution of the issues involved. Please contact me at (412) 433-5918 once you have determined a meeting date or if you need any additional information.

Very truly yours,

Lorraine Guevara
